INDUS wins Test Operations Support Services (TOSS) Contract supporting Naval Surface Warfare Center (NSWC), Corona Division, Detachment Fallbrook

San Diego, CA, May 27, 2022: INDUS Technology, Inc. (INDUS), a Service-Disabled Veteran-Owned Small Business (NAICS dependent) and Government Support Services provider, received notification from Naval Surface Warfare Center (NSWC), Corona Division, that we were awarded a prime contract to provide Test Operations Support Services (TOSS) for the Expeditionary Systems Engineering Division (ESED) and Range Systems Engineering Department (RS). The approximate contract award value is \$10M.

This award will provide up to 5 years of technical services in support of Expeditionary Warfare Systems at the engineering complex aboard Naval Weapons Station Seal Beach, Detachment Fallbrook, located in Fallbrook, CA.

The primary services to be provided include test planning, test execution, test support, test operations and associated logistics. These services are in support of a wide variety of systems across their life cycle, which include ESED's focus areas such as Arms, Ammunition, Explosives, Weapons Systems, and associated platforms utilized by the Expeditionary Warfare community. The scope of this work also includes ESED's secondary focus areas such as Sensors & Communications, Mobility Platforms, Systems Integration, Commercial Off-The-Shelf (COTS) equipment with unique military applications, and other systems that require independent testing for Expeditionary Warfare.

Eric MacGregor, President & CEO, commented, *"This award represents INDUS' first prime contract from NSWC Corona and we are honored to be supporting Detachment Fallbrook and the critical mission of the Expeditionary Warfare community, as well as the specific testing requirements of the Expeditionary Systems Engineering Division and Range System Engineering Department."*

This effort will be managed by INDUS Vice President, Mr. Clay Glasheen.
