LMR Technical Group and INDUS Technology, Inc Announce Formation of Strategic Joint Venture: Spartan Defense Group LLC

San Diego, California – LMR Technical Group (LMR), a Service-Disabled Veteran Owned Small Business (SDVOSB) and INDUS Technology, Inc (INDUS) have announced the formation of a strategic joint venture (JV), Spartan Defense Group LLC (Spartan). LMR and INDUS have also formed a Small Business Administration (SBA)-approved Mentor-Protégé relationship in which INDUS is the Mentor and LMR is Protégé.

Spartan will integrate the core capabilities of each company including logistics, program management, financial management, information technology, and decision support services, along with leveraging specialized qualifications in engineering, cybersecurity, training, human performance optimization, and operational support. Spartan is focused on providing high quality services to existing and targeted new customers within Navy, Coast Guard, Air Force, Special Operations, Army, Department of Homeland Security (DHS), and Federal markets.

“As INDUS continues to move into large business territory under our primary NAICS (541330), I felt that it was imperative to find trusted partners to form joint ventures with to allow INDUS to continue to compete on Small Business set-asides under the 541330 NAICS. After meeting with Chris and the LMR team, it became evident that our two companies had complimentary past performance, similar core values and a lot to gain from each another. I’m looking forward to the many opportunities that we are pursuing together under the Spartan Defense Group banner.” said Eric MacGregor, INDUS' President & CEO.

“LMR is excited to partner with INDUS in the creation of this new venture that will allow us to expand our service offerings and broaden our customer base. Our decision to partner with INDUS was largely based upon the recognition of our shared common corporate core values of being employee centric entities that are focused on providing exceptional services that advance the strategic mission set of DoD and Federal customers. This partnership will allow us to leverage each our organization’s strengths and core competencies while thoughtfully pursuing new opportunities where we can provide solutions to customers’ problem sets.” said Chris Larkin, LMR's CEO & Co-Founder.

Spartan was founded on common core values from both entities – to emphasize an employee-centric workforce that embodies strong ethics and is dedicated to continuously providing our customers with quality, innovative solutions.

Please contact bd@industtechnology.com and info@lmrtec.com to discuss teaming opportunities.
