INDUS Technology, Inc Wins New Work At NUWC Division Keyport!

San Diego, California – INDUS Technology, Inc, a leading Government services provider, announced that it has been awarded the Industrial Support Services (ISS) contract with Naval Undersea Warfare Center (NUWC) Division, Keyport. The approximate contract award value of this Unrestricted effort is \$84.5M.

This win represents new work for INDUS and will expand INDUS' corporate footprint into the states of Washington and Nevada. Tasking includes metal preparation services, welding services, equipment/machine maintenance and machining services, electro-mechanical depot repair, electronics shop test and repair, field maintenance services, business operations/logistics/technical support, training support, torpedo operations services, QA/technical documentation support, torpedo demilitarization support, and administrative support. If all options are awarded, the period of performance will go through September 2026.

Per Eric MacGregor, INDUS' President & CEO, "INDUS is honored to be given the opportunity to support these mission critical Keyport ISS programs. This award represents INDUS' largest full and open/unrestricted contract award and significantly helps INDUS propel into large business territory."
