## Spartan Defense Group Joint Venture Awarded \$43 Million KBASS Contract Supporting Naval Undersea Warfare Center Division Keyport

Spartan Defense Group, an SBA Mentor Protege Joint Venture (JV) partnership between LMR Technical Group (LMR) and INDUS Technology (INDUS), announce that it has been awarded the Naval Undersea Warfare Center Division Keyport (NUWCDIVKPT) Business and Administrative Support Services (KBASS) contract. The five-year contract carries an approximate total value of \$43M.

This win expands both INDUS' and LMR's footprint in Keyport, where both companies maintain a strong presence, and further strengthens the strategic partnership between INDUS and LMR in delivering high-quality mission support services to the U.S. Navy.

Under the KBASS contract, the Spartan JV will provide comprehensive business and administrative support services to Naval Undersea Warfare Center Division Keyport. The scope of work includes:

- Business operations support
- Financial management and budget execution
- Acquisition and contract administration support
- Data analysis and reporting
- Process improvement initiatives
- Administrative services

These services are critical to ensuring operational excellence and mission readiness in support of the Navy's undersea warfare systems and programs.

Per Eric MacGregor, INDUS' President & CEO, "INDUS is thrilled to be awarded this opportunity to provide these critical financial and administrative support services to NUWCDIVKPT alongside our joint venture partner LMR! Keyport has been an important command within INDUS' contract portfolio for over 20 years, and we're honored to be given the confidence by the command to provide continued support over the next 5 years".

Per Chris Larkin, CEO & Co-Founder, "This award represents an important milestone for Spartan Defense Group and for LMR as the protégé partner in this joint venture. Working alongside INDUS allows us to expand our footprint in Keyport while strengthening the long-term strategic relationship between our companies. Together, we are committed to providing NUWCDIVKPT with responsive, high-quality business and administrative support that enhances mission readiness and drives continuous improvement."

## INDUS
